

2003 Community-based Watershed Group Inventory

Promote stakeholder participation in community-based watershed groups as a means to improve stream health

Activity Title: Community-based Watershed Organization Inventory

Activity Description: Miami Conservancy District produced an inventory of all the groups that work on watershed issues in the Great Miami River Watershed.

Start Date: 3/25/2003 **End Date:** 11/25/2003

Result Statement: The inventory is published to promote local work of individual watershed groups to their stakeholders. For access to the inventory, go to
