Trout in the Classroom is a national educational program promoted by Trout Unlimited. Ohio's Madmen Chapter of Trout Unlimited sponsors Trout in the Classroom at Benjamin Logan High School, one of 4 schools in Ohio studying trout growth and the first in the Mad River watershed. The presentation on establishing the aquarium and using trout in the classroom as a teaching aid for Biology and Ecology will be given by Spencer Reames, an award winning science teacher from Benjamin Logan Schools, and Don Dean, Director of Education and the Environment for the Madmen Chapter of TU.

Next meeting – June 7, 2012

Water Quality Results from the Removal of the Englewood Low Dam
